CORE COMPETENCIES

- VO Pipeline Ownership
- Audio Direction & Leadership
- SFX Design
- Audio Mood Boards
- Logic Pro · Pro Tools
- FMOD Studio
- Outsource Management
- Interactive / Adaptive Music
- Spatial Audio
- Composition & Orchestration
- Wwise
- Unity Audio
- Feature Documentation
- Cross-functional Collaboration
- ADR · Foley · Dubbing

PROFILE

Audio Lead and director with 10+ years delivering production-ready audio for mobile games reaching 200M+ players globally and feature films. Full ownership of VO pipelines, SFX design, interactive music systems, FMOD and Wwise middleware, and outsource management — from creative brief and audio mood boards through final in-game delivery. Experienced directing composers, voice talent, and external vendors across simultaneous multi-project environments. Proven ability to operate with high autonomy, set up audio pipelines from scratch, and author feature documentation that bridges creative and engineering teams.

EXPERIENCE

Audio Lead & Founder

Aug 2025 – Present

Beat Kingdom · Original Rhythm IP *Independent*

- Leading full audio direction on an original rhythm game — designing adaptive music systems that respond to gameplay state (BPM, intensity, player input), and owning creative vision from concept through implementation.
- Authored audio feature documentation and mood boards; managing asset pipeline and middleware integration independently.

AI Audio Developer

Nov 2025 – Present

Gita Gurukul · AI Pronunciation Platform *Independent*

- Building a prototype for AI-assisted pronunciation evaluation — solving phonetic segmentation, speech alignment, and real-time audio feedback challenges independently, with no oversight or process scaffolding.

Sound Designer & Audio Lead

Sep 2023 – Sep 2025

Giga Fun Studios · Bangalore & Qila Games · Bangalore *Contract*

- Led audio across four shipped mobile titles — Milli Match, Rani's Case Files, Travel Match India, and Ludo Hero — applying modular SFX architecture and parameter-driven music systems across match-3, puzzle, and multiplayer genres.
- Owned end-to-end Unity audio implementation: asset pipeline, FMOD/Wwise middleware integration, and reactive audio state management for live mobile products.
- Authored audio feature documentation and delivery specs; collaborated directly with designers and engineers to meet technical requirements.

Audio Director, Sound Designer & Composer

Jan 2019 – Present

Independent Film Projects · Hyderabad, India *Freelance*

- Directed composers, voice talent, and live instrument recording sessions across four Telugu features — Cinemabandi (award-winning), Anthele Kadha Anthele, Kavyam, and Seetharam Sithralu.
- Sole producer on Telugu indie E3 — owning original songs, background score, sound design, mixing and mastering end-to-end; all decisions made autonomously under production deadlines.
- Directed ADR, sync sound, foley, and dubbing sessions across drama, comedy, and horror genres.

Sound Designer & Composer

Feb 2022 – Jun 2022

Gear Inc. · Da Nang, Vietnam *Contract*

- Designed audio for globally-distributed IPs Angry Birds Match 3 and M&M's Adventure — tuning SFX and music systems to gameplay feel, reward mechanics, and player retention loops.

Lead Sound Designer & Music Producer

Oct 2018 – Feb 2022

Nukebox Studios · Bangalore, India *Full-time*

- Shipped audio for SpongeBob: Krusty Cook-Off (29M+ downloads, Google Play Users' Choice Award 2020), Food Truck Chef, and Room Flip — collectively reaching 200M+ players globally.
- Owned the complete audio pipeline: VO pipeline direction, SFX design, FMOD Studio middleware integration, interactive music systems, and Unity implementation across a 3+ year full-time tenure.
- Managed outsourced voice actors, composers, and sound design vendors — directing sessions, integrating deliverables, and enforcing quality standards across all external contributors.
- Authored audio mood boards, feature documentation, and asset naming conventions; collaborated with game designers and engineers to define and meet technical audio requirements on schedule.

TECHNICAL SKILLS

Middleware:	FMOD Studio, Wwise, Unity Audio
Audio Direction:	VO pipeline, outsource management, vendor direction, mood boards, feature documentation
Game Audio:	Adaptive / interactive music, SFX design, spatial audio, live ops, casual & party genres
DAW / Production:	Logic Pro, Pro Tools, Reaper, orchestration, composition
Film / Post & AI:	ADR, foley, sync sound, dubbing, mixing & mastering · Phonetic alignment, IPA mapping, speech evaluation

SHIPPED TITLES

SpongeBob: Krusty Cook-Off (Nukebox) · Food Truck Chef (Nukebox) · Room Flip (Nukebox) · Angry Birds Match 3 (Gear Inc.) · M&M's Adventure (Gear Inc.) · Milli Match (Giga Fun) · Rani's Case Files (Giga Fun) · Travel Match India (Giga Fun) · Ludo Hero (Qila Games)

FILM CREDITS

Cinemabandi (D2R, 2019–20) · Anthele Kadha Anthele (Sakala, 2021–22) · Kavyam (Swaraj, 2022–23) · Seetharam Sithralu (2023) · E3 Telugu indie (Ongoing)

EDUCATION

M.S. Music Technology

Georgia Institute of Technology
Aug 2015 – May 2017

M.Tech Mechanical Engineering

NIT Rourkela
Aug 2008 – May 2012

LEADERSHIP APPROACH

Full autonomy across game & film — setting direction, managing vendors, delivering without oversight. Versatile across casual, party, match-3, multiplayer, drama, comedy, and horror. Keeper-test ready: independent, self-directed, zero process dependency.
