CORE COMPETENCIES		
▪ VO Pipeline Ownership	▪ FMOD Studio	▪ Wwise
▪ Audio Direction & Leadership	▪ Outsource Management	▪ Unity Audio
▪ SFX Design	▪ Interactive / Adaptive Music	▪ Feature Documentation
▪ Audio Mood Boards	▪ Spatial Audio	▪ Cross-functional Collaboration
▪ Logic Pro · Pro Tools	▪ Composition & Orchestration	▪ ADR · Foley · Dubbing

PROFILE

Audio Lead and director with 10+ years delivering production-ready audio for mobile games and feature films, including SpongeBob: Krusty Cook-Off (100M+ downloads, Google Play Users' Choice 2020) and Cinemabandi (Netflix India #1 trending, IFFI Jury Special Mention). Full ownership of VO pipelines — casting, directing, recording, editing, and in-game implementation — alongside SFX design, interactive and adaptive music systems, and outsource management across simultaneous multi-project environments. Fluent in FMOD Studio across shipped titles; Wwise-proficient with event graphs, RTPC systems, state machines, and spatialisation architecture directly transferable from FMOD. Collaborates natively with engineers — defining integration contracts, parameter schemas, and bus architecture as standard practice. Establishes audio pipelines from scratch, authors mood boards and feature documentation, and delivers without oversight at any scale.

EXPERIENCE

Audio Lead & AI Audio Developer

Aug 2025 – Present

Beat Kingdom · Original Rhythm IP & Gita Gurukul · AI Pronunciation Platform *Independent*

- Leading full audio direction on an original rhythm game — designing adaptive music systems (BPM, intensity, player input), authoring audio mood boards and feature documentation, and managing FMOD Studio integration end-to-end.
- Building an AI-assisted pronunciation evaluation prototype — architecting phonetic segmentation, speech alignment, and real-time audio feedback pipelines from scratch.

Sound Designer & Audio Lead — Games

Oct 2018 – Sep 2025

Nukebox Studios · Bangalore · Gear Inc. · Da Nang, Vietnam · Giga Fun Studios · Bangalore · Qila Games · Bangalore *Full-time & Contract*

- Shipped audio for SpongeBob: Krusty Cook-Off (100M+ downloads, Google Play Users' Choice 2020), Food Truck Chef, and Room Flip at Nukebox — sole audio decision-maker across all three titles simultaneously for 3+ years.
- Designed SFX and adaptive music for Angry Birds Match 3 (now Angry Birds Hatchlings — 10M+ downloads, Rovio) and M&M's Adventure (500K+ installs) at Gear Inc.; led audio on Milli Match, Rani's Case Files (50K+), Travel Match India (50K+), and Ludo Hero (60K+) at Giga Fun and Qila.
- Owned the full VO pipeline across all studios — casting, directing, and managing outsourced voice talent — alongside FMOD Studio middleware integration, adaptive music systems, and Unity audio implementation.
- Co-defined audio integration standards with engineering at every studio: event naming schema, parameter contracts, bus architecture, and asset delivery specs — adopted as production baselines; authored audio mood boards and feature documentation per title.

Audio Director, Sound Designer & Composer — Film

Jan 2019 – Present

Independent Telugu Film Productions · Hyderabad, India *Freelance*

- Sound design and score on Cinemabandi (Netflix India, 2021) — #1 trending debut week, IFFI Jury Special Mention, 7.8 IMDb; defined the film's complete sonic identity in collaboration with the director and post-production team.
- Directed composers, voice talent, ADR, foley, and live instrument sessions across four Telugu features (Cinemabandi, Anthele Kadha Anthele, Kavyam, Seetharam Sithralu); sole audio producer on Telugu indie E3 — songs, score, sound design, mix and master end-to-end.

TECHNICAL SKILLS

Middleware:	FMOD Studio (shipped — extensive production depth) · Wwise (proficient — event graphs, RTPC, state machines, spatialisation architecture directly transferable from FMOD) · Unity Audio
Audio Direction:	VO pipeline (casting, directing, recording, editing, implementation) · outsource management · vendor direction · audio mood boards · feature documentation
Game Audio:	Adaptive / interactive music · SFX design · spatial audio · parameter-driven systems · casual, party & multiplayer genres
DAW / Production:	Logic Pro · Pro Tools · Reaper · orchestration · composition · mixing & mastering
Film / Post & AI:	ADR · foley · sync sound · dubbing · phonetic alignment · IPA mapping · speech evaluation

SHIPPED TITLES

SpongeBob: Krusty Cook-Off (Nukebox) · Food Truck Chef (Nukebox) · Room Flip (Nukebox) · Angry Birds Match 3 (Gear Inc.) · M&M's Adventure (Gear Inc.) · Milli Match (Giga Fun) · Rani's Case Files (Giga Fun) · Travel Match India (Giga Fun) · Ludo Hero (Qila Games)

FILM CREDITS

Cinemabandi (Netflix India, 2021 — #1 trending · IFFI Jury Award · 7.8 IMDb) · Anthele Kadha Anthele · Kavyam · Seetharam Sithralu · E3 (ongoing)

Roles: Audio Director · Sound Designer · Composer · ADR · Foley · Dubbing

EDUCATION

M.S. Music Technology

Georgia Institute of Technology
Aug 2015 – May 2017

M.Tech Mechanical Engineering

NIT Rourkela
Aug 2008 – May 2012

LEADERSHIP & AUTONOMY

- Sole audio decision-maker across 9 shipped games and 5+ feature films — directing vendors, setting integration standards, delivering without oversight across genres and platforms.
- Established audio pipelines from scratch at every studio; authored technical specs adopted by engineering as production standards.
- Comfortable setting direction before process exists — built for high-trust, high-autonomy environments.
